

# BSI | Fluidigm Research Award

REIMAGINE  
IMMUNE PROFILING

**Win One of Two Free Immune Profiling Projects  
With CyTOF® Technology**

## [Submit Your Proposal](#)

The BSI and Fluidigm, will award the two most impactful proposals in immunology which aim to profile in-depth all major immune cell types present within human blood within any disease state.

Submit your proposal to be in with the chance to analyze 25 samples of your choice using a combination of the award winning Maxpar® Direct™ Immune Profiling Assay and the new, high-throughput, CyTOF XT™ high-dimensional cytometer.
